PROMI

In Line Miniature optical Adaptor - ARINC 801 Termini

Description

For easy installation & maintenance, the PROMI is the solution for optical link in harsh Environment. The PROMI (In Line Miniature Optical Adaptor) may be used on patchords already in place. For a reduced space, where the connector is not suitable, the PROMI allows the division of the link into several sections. This optical Miniature extender PROMI realizes a very compact removable splice.
