# BUSINESS SECURITY PACKS

## Combine Your Security

No matter the operating system on your computers or smartphones, protect them all. Deploy on Windows, OS X, Linux or Android as you need, without wasting a single license.

## Security Easily Managed

Freeing up valuable IT resources, you can manage network security from one console. The solution's small system footprint extends lifetime of older machines.

## Always the Latest Protection

If there is a newer version of the installed products, upgrade for free. You will always have access to the latest technology. Replacing a computer in the network? Transfer the license and stay protected.

## Need to Protect a Mail Server?

To secure company mail traffic with proven detection technology, choose ESET® Small Business Security Pack. The mail server protection it contains covers the whole server – mailboxes and the server environment, no matter the operating system.

## SPLIT THE PROTECTION AMONG YOUR COMPUTERS AND MOBILE DEVICES AS NEEDED
