

# SECURITY SOLUTIONS FOR EDUCATION

**Spend more time supporting your faculty, staff, students and education initiatives**—and less time worrying about security issues. ESET® helps you navigate the complex security landscape and minimize risk as you digitize classrooms and keep legacy equipment running smoothly. Our solutions address business continuity while keeping budget constraints in mind.

## ESET understands education customers

While requirements vary greatly between K-12 and higher education settings, both face ongoing challenges in protecting networks, endpoints and users.

- ✓ Work with tight budgets that force IT teams to extend the life of endpoints and servers and reduce spending on software and upgrades.
- ✓ Manage a broad range of devices, from legacy equipment and multiple operating systems to the latest smartphones and tablets.
- ✓ Protect sensitive data including employee and student records, medical information, Social Security numbers and payment accounts.
- ✓ Serve a diverse user base of varying ages, technical knowledge and needs.
- ✓ Meet complex compliance, auditing and reporting requirements.

## Superior protection and speed

As pioneers in the cybersecurity arena, ESET developed heuristic detection, an innovation that anticipates new viruses and malware before they can do harm to your system.

- ✓ Thirty years ago, ESET started to incorporate proactive technologies into its scanning engine and gradually implemented different layers of protection to strike at different stages of the cyber kill chain.
- ✓ Now, ESET uses multilayered technologies that go far beyond the capabilities of basic antivirus, and protect against anything that is malicious.
- ✓ Includes technologies such as Exploit Blocker, Advanced Memory Scanner, DNA Detections, Cloud Malware Protection system and many more.

## Exceptional value and versatility

ESET offers our education customers no-charge central management for multiple users and devices and ongoing technical support. By extending the useful life of your hardware, ESET helps you save a substantial amount of money.

- ✓ ESET can replace outdated and underperforming antivirus programs from other vendors quickly, with no downtime and at low cost.
- ✓ Pre-configured bundles, from entry-level to complete coverage, offer additional cost savings over individual items.
- ✓ Install and manage systems from gateway to endpoint, from legacy hardware to the latest tablets, all from a single console.

# SECURITY SOLUTIONS FOR EDUCATION

## Education support

ESET provides you with the tools and technologies to help keep your students and faculty safe.

- ✓ **Single console** lets you easily customize and maintain logs and run reports as needed.
- ✓ **Antivirus/antimalware** proactively protects assets from viruses and malware.
- ✓ **Web control** supports the blocking of websites at the endpoint level and reduces the ability to bypass web blocking.
- ✓ **Two-factor authentication** prevents unauthorized access to student records or any other confidential information.
- ✓ **Encryption** protects the loss of confidential data and allows the ability to remotely wipe devices.
- ✓ **Full MDM control** for both Android and iOS devices.
- ✓ **Device control** prevents students and faculty from attaching any third party devices such as smartphones to a school computer.
- ✓ **Cybersecurity training** for faculty and staff, conducted on-site or remotely.

## ESET<sup>®</sup> BUSINESS SOLUTIONS

Bundled solutions give you the flexibility to implement an ESET security solution to fit your needs now, and to add, renew and upgrade as your technology needs evolve.

### ESET Endpoint Protection Standard

Keep your network clean and protect your endpoints (computers, smartphones, tablets and file servers) against emerging threats and data theft with security that is easily manageable from a single console.

### ESET Secure Business

Protect all computers, laptops, mobile devices and file servers—and prevent email-borne malware and phishing messages from reaching them—with Mail Security that hardens your network with an extra line of defense.

### ESET Endpoint Protection Advanced

Build on the security of Endpoint Protection Standard by adding a firewall, antispam and URL filtering—implementing additional layers of protection for your school's network and authorized mobile devices.

### ESET Secure Enterprise

Choose this option if you operate your own internet gateway server. Safeguard your HTTP/FTP communications and block malware at your network perimeter while maximally protecting endpoints and servers.
