Premium Antivirus and Internet Security for Windows

Enjoy your digital life, secured by ESET's ultimate multi-layered antimalware protection, built on ESET's trademark best mix of detection, speed and usability. Not only do you get ESET's award-winning antivirus and antispymware; you can generate and store secure passwords, encrypt USB storage devices, protect your webcam and router, and secure your online financial transactions.

13-YEAR  
UNBEATEN  
RECORD

## Making the internet safer for you to enjoy

ESET technologies are trusted by more than 110 million users worldwide to protect against all types of digital threats.

<b>Antivirus and antispymware</b>	Provides proactive protection against all types of online and offline threats and prevents malware from spreading to other users
<b>Exploit blocker</b>	Blocks attacks specifically designed to evade antivirus detection and eliminates lockscreens and ransomware Protects against attacks on web browsers, PDF readers and other applications, including Java-based software
<b>Advanced memory scanner</b>	Enables improved detection of persistent malware that employs multiple layers of encryption to conceal its activity
<b>Cloud-powered scanning</b>	Speeds up scans by whitelisting safe files based on the ESET Live Grid® file reputation database Helps to proactively stop unknown malware based on its behavior, by comparing it with our cloud-based reputation system
<b>Scan while downloading files</b>	Decreases scanning time by scanning specific file types—such as archives—during the download process
<b>Idle-state scanning</b>	Aids system performance by performing in-depth scans when your computer is not in use Helps detect potential inactive threats before they can cause damage
<b>Host-based Intrusion Prevention System (HIPS)</b>	Lets you customize the behavior of the system in greater detail Gives you the option to specify rules for system registry, active processes and programs, and fine-tune your security posture
<b>Script-based attack protection</b> <small>NEW</small>	Detects attacks by malicious scripts that try to exploit Windows PowerShell Also detects malicious JavaScripts that can attack via your browser. Mozilla Firefox, Google Chrome, Microsoft Internet Explorer and Microsoft Edge browsers are all supported.

## Enjoy the full power of your computer

Leaving more power to the programs you use daily, ESET Smart Security Premium 10 lets you play, work and browse the internet without slowdowns. Stay unplugged and online longer with battery-saving mode and enjoy gaming without distracting pop-ups.

<b>Small system footprint</b>	Maintains high performance and extends the lifetime of hardware Fits any type of system environment Saves internet bandwidth with extremely small update packages
<b>Gamer mode</b>	ESET Smart Security Premium 10 automatically switches to silent mode if any program is run in full-screen System updates and notifications are postponed to save resources for gaming, video, photos or presentations
<b>Portable computer support</b>	Postpones all non-actionable pop-up windows, updates and system-hungry activities to preserve system resources so that you can stay online and unplugged longer

## Protect your privacy

Enjoy safer connections and stay safe while online banking and making online payments. Protect your webcam and home Wi-Fi router from intruders, and protect your private data from ransomware. Safely store, generate and prefill your passwords, and encrypt your files and removable media (USB keys) to safeguard your privacy.

### Secure data

NEW PREMIUM

Lets you encrypt files and removable media (e.g. USB keys) for ultra-secure safeguarding of your data. Protects against data theft in the event of USB-key or laptop loss, and allows secure collaboration and data sharing.

### Password manager

NEW PREMIUM

Employs AES-256 encryption—the world's leading standard, as used by the military—to store and pre-fill all your passwords. All you need to remember is your master password. Can also generate and store extra-strong new passwords each time you need one.

### Ransomware shield

NEW

Blocks ransomware that locks up your data and demands a ransom be paid to unlock it.

### Webcam protection

NEW

Constantly monitors all the processes and applications running on your computer, to see which ones want to use your webcam. It alerts you to any that unexpectedly try to access your webcam, and lets you block them.

### Home network protection

NEW

Get ready for the Internet of Things (IoT) with this extra security for your home Wi-Fi router. Enables you to test your home router for vulnerabilities, such as weak password or out-of-date firmware, and offers you options for remediation. Also provides you with an easy-to-access list of connected devices, with devices categorized by type (e.g. smartphone, IoT, etc.), to show you who's connected.

### Personal firewall

Prevents unauthorized access to your computer and misuse of your personal data.

### Network attack protection

In addition to personal firewall, automatically protects your computer from malicious network traffic, blocking threats revealed by dangerous traffic patterns.

### Banking & payment protection

Features a special secured browser through which you can safely pay online. Automatically protects you on internet banking sites. Encrypts the communication between the keyboard and the browser for safer transactions. Protects you from keyloggers.

### Botnet protection

Added layer of security that protects against botnet malware—preventing your computer from being misused for spam and network attacks. Benefit from a new type of detection thanks to Network Signatures, for even faster blocking of malicious traffic.

### Anti-phishing

Protects you from attempts to acquire sensitive information such as usernames, passwords or other sensitive personal details by fake websites masquerading as trustworthy ones.

### Out-of-home network

Alerts you when connecting to an unknown network and prompts you to switch to the Strict Protection mode. Makes your device invisible to other computers connected to the same network.

### Device control

Allows you to prevent unauthorized copying of your private data to an external device. Allows you to block storage media—CDs, DVDs, USB sticks, and disk storage devices. Lets you block devices connecting via Bluetooth, FireWire and serial/parallel ports.

### Antispam

Keeps unwanted emails from clogging your mailbox.

### Free U.S.-based support

Help available at your fingertips with ESET U.S.-based Customer Care agents and online Knowledgebase solutions.

## Anti-Theft—Stay safer by tracking and locating your missing computer

Protect your Windows laptop in case it gets lost or stolen, and increase the chances of its retrieval. Create a my.eset.com account to enable protection of your device should it go missing.

---

<b>Location tracking</b>	Lets you mark a device as missing via the ESET® Anti-Theft web interface at my.eset.com to initiate automatic monitoring. Displays position on a map based on the Wi-Fi networks in range when the device comes online. Allows you to access the gathered information via ESET Anti-Theft at my.eset.com.
<b>Laptop activity watch</b>	Allows you to watch thieves via your laptop's built-in camera. Collects snapshots of the missing laptop's screen. Saves all recent photos and snapshots to the web interface at my.eset.com.
<b>Anti-theft optimization</b>	Lets you easily set up/configure Anti-Theft for maximum protection of your device. Makes it easy to configure Windows auto-login and operating system account passwords. Helps you increase the level of security by prompting you to modify key system settings.
<b>One-way messaging</b>	At my.eset.com, create a message and have it displayed on your missing device – to increase the chances of its retrieval

---

## Keep your kids safe on the internet

Show kids only the good side of the internet with Parental Control, preventing them from being exposed to offensive online content. Block more than 20 website categories, or add individual sites to the blacklist.

---

<b>Parental control</b>	Gives you the option to choose from predefined categories according to a child's age. Lets you set a password to protect settings against modification as well as prevent unauthorized product uninstallation
-------------------------	--

---

## Install and forget, or customize to meet your exact requirements

Delivering top protection right from the start with its default settings, ESET Smart Security Premium 10 keeps you informed about potential security issues and lets you address them directly from the main screen. Its sleek user interface is designed to let you easily set up all routine tasks. In addition, you can fine-tune your security profile with more than 150 detailed settings.

---

<b>One-click solution</b>	Protection status and all frequently used actions and tools are accessible from all screens. In case of any security alerts, quickly find the solution in one click.
<b>Smooth product upgrades</b>	Benefit from new protection technologies as soon as they become available, for a continuously high level of security.
<b>Settings for advanced users</b>	Offers in-depth security settings to fit your needs. Allows you to define maximum scanning depth, scanning time, size of the scanned files and archives, and much more.
<b>ESET SysInspector®</b>	This advanced diagnostic tool captures critical information from the system to troubleshoot a broad range of security and compatibility issues.

---

### System requirements:

ESET Smart Security Premium 10 runs on any system with Microsoft® Windows® 10, 8.1, 8, 7, Vista and Microsoft Windows Home Server 2011.
