# 1 Introduction

This README file contains changes for the user documentation of POSIX.

## 1.1 Affected guides

The changes described here concern the following guides:

[1] POSIX Basics for Users and System Administrators
User Guide
Valid for BS2000/OSD V7.0/V8.0/V9.0
Edition November 2012
U22795-J-Z125-7-76

# 2 Changes to User Guide POSIX Basics for Users and System Administrators [1]

*Valid for*
* *BS2000/OSD V7.0/V8.0/V9.0/*V10

### *5.4.2 Installing an upgrade for a new POSIX version*

*To install an upgrade, you need simultaneous access to the POSIX product files <oldversion> and <newversion>.*

* If in POSIX additional products are installed (e.g. JENV) then this products should be de-
* installed before beginning with the following steps or the associated product files have to
* be copied on the new Pubset, too.

*Then the following steps must be taken:*

*1. Create a new HOME pubset for continued use of the POSIX data.*
