

## **APPLICATION MANAGER 2G/3G**

How to define the menu parameters for an applet installation?

Note that this HowTo covers only one aspect of the applet installation. Refer to the User Guide or tutorials for more information about the applet installation using Application Manager 3G.

1. Use edit to open "Dialog Editor".

Position

SIM R99

Note: Please be sure to choose correct card type in the "Target" panel.

2. Use Left panel to select correct instance of correct applet.

| 😚 Dialog Editor  |   |          |  |  |  |  |  |
|--|---|----------|--|--|--|--|--|
