I N F O R M A T I O N

Copyright IBM Corporation 1993, 2020

- The information in this document was last updated:

16 Oct 2020

- The latest cumulative package for i 7.2 is: C0114720

- Cumulative package C0114720 began shipping worldwide:
  15 May 2020.

- Date cumulative PTF package instructions last updated:
  15 May 2020.

- The next cumulative package is scheduled for 20 Nov 2020.

      NOTE: THIS DATE MAY CHANGE WITHOUT NOTICE, CHECK THIS FILE
            BEFORE ORDERING.

- Users should order Preventive Service Planning (PSP) information
  and review the recommended HIPER PTFs on a weekly basis.
  The PSPs can be viewed through the Internet at URL:
  http://www.ibm.com/support/docview.wss?uid=nas8N1021657

- It is important that users review and understand all new software
  release considerations. This is especially true of discontinued
  support for selected software and hardware products and/or features.
  To get the most current information on discontinued products and/or
  features along with suggested replacements, go to the IBM i operating
  system Planning Web site:
  http://www.ibm.com/systems/support/i/planning/

- To review the IBM i operating system Information Center information on
  installation, upgrades, and migration, follow the link:
  http://www-01.ibm.com/support/knowledgecenter/ssw_ibm_i/welcome
  You may find this information useful to install hardware and software,
  upgrade to a different OS/400 release, upgrade your hardware, or migrate
  your data from one server to another.

- Hardware Management Console (HMC)

The HMC is a dedicated workstation that runs integrated
system management software. As with other software,
your HMC should be kept current. For HMC Fixes and update
information, refer to the HMC Code Updates or the Server
Firmware and HMC Wizard documents at Recommended Fixes:
http://www-01.ibm.com/support/docview.wss?uid=nas8N1021480

For information regarding general HMC support information,
go to the following URL:
http://www14.software.ibm.com/webapp/set2/sas/f/hmc/home.html

- Server Firmware

  Server firmware is part of the Licensed Internal Code that
  enables your hardware. As with other software, your server
  firmware should be kept current. For general information,
  refer to the Information Center URL:
  http://publib.boulder.ibm.com/infocenter/eserver/v1r3s/index.jsp

  For the Server Firmware and HMC Code / Installation Wizard:
  Go to Recommended fixes at the following URL:
  http://www-01.ibm.com/support/docview.wss?uid=nas8N1021480 and
  specify Server Firmware and HMC Wizard.

- PTFs may be ordered through the Internet. For more information,
  go to URL:
  http://www.ibm.com/eserver/support/fixes/fixcentral/main/iseries/

- Single PTFs, Group PTFs, and Cumulative PTF Packages ordered through
  Fix Central or using the SNDPTFORD command are shipped priority 2.

  The delivery criteria for Single PTFs, Group PTFs, and
  Cumulative PTF Package orders can be found at the following URL:
  https://www14.software.ibm.com/webapp/ssos/order_status

- The following is a summary of the i 7.2 information that is
  available through Electronic Customer Support (ECS):

INFORMATION		PTF #
Order the latest cumulative PTF package		SF99720

DETAILED DESCRIPTIONS:

NOTE: Refer to the chart above for a list of the currently
        available PSPs.

SF99720 - Order this PTF number when you would like to receive the
          latest cumulative PTF package that is available in your
          country.

SF99719 - Ordering this PTF number will result in the shipment of a
          CD-ROM containing all known HIPERs. SF99719 will be refreshed
          on Tuesday of every other week.

SF98181 - This PSP contains a short version of the cumulative PTF
          instructions and the detailed installation instructions for a
          previous cumulative package.

SF96181 - This PSP contains the listing of PTFs on the cumulative PTF
          package for a previous cumulative package.

SF98182 - This PSP contains a short version of the cumulative PTF
          instructions and the detailed installation instructions for a
          previous cumulative package.

SF96182 - This PSP contains the listing of PTFs on the cumulative PTF
          package for a previous cumulative package.

SF98183 - This PSP contains a short version of the cumulative PTF
          instructions and the detailed installation instructions for
          the current cumulative package.

SF96183 - This PSP contains the listing of PTFs on the cumulative PTF
          package for the current cumulative package.

SF98720 - This PSP contains information on all known High Impact and
          Pervasive (HIPER) PTF problems that are NOT included in the
          latest cumulative PTF package but may affect your operation.
          This PSP also contains General Information items. If there are
          any defective PTFs that were in the cumulative PTF package,
          they would also be listed in the PTFs in Error Section of this
          PSP.

SF98185 - This PSP provides information for a specific cumulative PTF
          package level. The summary table (above) cross references the
          PSP number to the cumulative package level. Order the PSP
          number that corresponds to the cumulative package you are
          installing or last installed. This PSP contains HIPERs and
          General Information items. If there are any defective PTFs
          that were in the cumulative PTF package, they would also be
          listed in the PTFs in Error Section of this PSP. The PSP for
          the cumulative package you have installed should be ordered
          periodically and reviewed for the latest information on known
          problems.

SF98184 - This PSP provides information for a specific cumulative PTF
          package level. The summary table (above) cross references the
          PSP number to the cumulative package level. Order the PSP
          number that corresponds to the cumulative package you are

installing or last installed. This PSP contains HIPERs and
General Information items. If there are any defective PTFs
that were in the cumulative PTF package, they would also be
listed in the PTFs in Error Section of this PSP. The PSP for
the cumulative package you have installed should be ordered
periodically and reviewed for the latest information on known
problems.

SF98180 - This PSP provides software installation information that
should be reviewed before installing i 7.2 and before adding
new program products. Information in this PSP is grouped by
product areas that may affect you during installation.

SF98172 - This PSP file contains information about Upgrades &
Migrations, including PTFs that are critical to operations
that occur during the upgrade process and corrections to the
Upgrade and Migration topics in the Information Center (i 7.2).

SF98116 - A file containing the "Memo To Users" and the "Read This
First" documents is available by ordering this PTF number. A
printed copy of these documents is included with every i 7.2
shipment. This file is available as a convenience for those
users who misplace their original copy.

SF98187 - This PSP contains a summary of PTFs that have been identified
as High Impact or Pervasive problems and a summary of
Defective PTFs (PTFs that have been found to be in error).

SF98188 - This PSP provides a complete list of i 7.2 Defective PTFs
(PTFs in Error). Users who regularly order and apply
individual PTFs should periodically review this PSP.

SF98189 - This PSP provides a complete list of all the High Impact or
Pervasive (HIPER) problems that have been discovered for i
7.2. Those users who support several systems at different
cumulative package levels may find this PSP useful.

MF98720 - This PSP provides information that should be reviewed before
installing new systems or hardware devices. Problems that may
affect the installation or operation of hardware devices are
documented here.

MH98720 - HMC code must be current. Review HMC information at:
http://www14.software.ibm.com/webapp/set2/sas/f/hmc/home.html
or refer to the HMC Code Updates document in Recommended
Fixes:
http://www-01.ibm.com/support/docview.wss?uid=nas8N1021480

MH98721 - This document applies to IBM i operating systems that have the
Firmware Update Policy set to Operating System or systems not
managed by an HMC. The server firmware information in this
document does not apply to Model 595 systems. Server firmware
fixes are ordered (using the SNDPTFORD command or Fix Central)

and installed as PTFs using the IBM i operating system PTF
installation functions. These PTFs have a prefix of MH. Refer
to the Server Firmware: Update policy set to Operating System
document in Recommended Fixes for more information:
http://www-01.ibm.com/support/docview.wss?uid=nas8N1021480

SF97047 - This PSP provides a listing to assist you when upgrading from
i 6.1/i 6.1.1 to i 7.2. This listing allows you to analyze the
PTFs/Fixes you currently have installed on your i 6.1/i 6.1.1
system and determine which i 7.2 PTFs/Fixes you need to order
to maintain the same or higher PTF/Fix level as you upgrade to
i 7.2.

SF97048 - This PSP provides a listing to assist you when upgrading from
i 7.1 to i 7.2. This listing allows you to analyze the
PTFs/Fixes you currently have installed on your i 7.1 system
and determine which i 7.2 PTFs/Fixes you need to order to
maintain the same or higher PTF/Fix level as you upgrade to i
7.2.

SF97720 - The listing provides you with a convenient reference of the
license internal code fixes (fixes) and program temporary
fixes (PTFS) that are available by IBM licensed program
categories. This listing is updated regularly. You may choose
to order a PTF/FIX that would effect one of your IBM licensed
programs.

C H A N G E   S U M M A R Y

Section	Last Update
General Information	DD MMM YYYY
Service Recommendations	16 Oct 2020
PTFS in Error	DD MMM YYYY

G E N E R A L   I N F O R M A T I O N

This section contains general information concerning the
installation and operation of i 7.2.

 1. NO ENTRIES

S E R V I C E   R E C O M M E N D A T I O N S

This section provides details on High Impact or Pervasive

(HIPER) problems. The PTFs that fix the problems
identified in this section are available as individual PTFs.

 NOTE: HIPERs that were included in the first cumulative PTF
       package are not included in this list. All users are
       expected to have installed at least one cumulative
       package so those PTFs will already be applied to their
       systems.

 - 'PROBLEM'   - This field provides a reference to the APAR
                       that addresses the problem (ie: SE01234),
                       the Licensed Program Number, and a brief
                       description of the problem.

 - 'USERS AFFECTED' - This field describes the users who are
                       exposed to this problem.

 - 'RECOMMENDATION' - This field describes the action you should
                       take to avoid the problem.

 NOTE: You should evaluate each entry to determine the impact of
       the problem to your operations. Depending on your
       environment and the requirements of your users, you may
       need to follow the recommendation immediately or you may
       be able to incorporate the recommendation into future
       system maintenance.

****

 116. 16 Oct 2020 PROBLEM: (SE74280) Licensed Program = 5770SS1
                           Security
                 USERS AFFECTED: All IBM i operating system DNS users
                 RECOMMENDATION: Apply PTF SI74161 for i 7.2.

 115. 07 Oct 2020 PROBLEM: (MA48404) Licensed Program = 5770999
                           Usability of a Product's MAJOR Function
                            Loss of cryptographic function can occur due to
                            adapter's with CCIN 4767 failing to vary on
                 USERS AFFECTED: All IBM i operating system users of
                                 cryptographic adapters with CCIN 4767
                 RECOMMENDATION: Apply LIC PTF MF67446 for i 7.2.

 114. 06 Oct 2020 PROBLEM: (SE74370) Licensed Program = 5770SS1
                           Other
                            Restores of the QUSRSYS library fail to restore
                            *UBPSPC (licensing usage) objects for products
                            that are not currently installed.
                 USERS AFFECTED: All IBM i operating system users.
                 RECOMMENDATION: Apply PTF SI74276. If possible, the PTF
                                 should be applied to a source system before
                                 backing up for recovery or migration
                                 purposes. If this is not possible, it is
                                 recommended to apply before restoring the

QUSRSYS library on the recovery target
                         system. If this is also not possible, any
                         errors relating to the restore of *UBPSPC
                         objects during the restore of QUSRSYS may
                         be temporarily ignored. Another attempt to
                         restore the library may be made after the
                         PTF can be applied.

113. 28 Sep 2020 PROBLEM: (SE74406) Licensed Program = 5770DG1
                         Security
              USERS AFFECTED: All IBM i operating system users.
              RECOMMENDATION: Apply PTF SI74336 for i 7.2.

112. 28 Sep 2020 PROBLEM: (MA48619) Licensed Program = 5770999
                         Security
              USERS AFFECTED: All IBM i operating system users.
              RECOMMENDATION: Apply LIC PTF MF67874 for i 7.2.

111. 25 Sep 2020 PROBLEM: (MA48382) Licensed Program = 5770999
                         Incorrect Output Causes a Severe Problem
              USERS AFFECTED: All IBM i operating system users.
              RECOMMENDATION: Apply LIC PTF MF67415 for i 7.2.

110. 18 Sep 2020 PROBLEM: (MA48567) Licensed Program = 5770999
                         Crash/Hang Requiring an IPL to Recover

                          B6000103
              USERS AFFECTED: All IBM i operating system users.
              RECOMMENDATION: Apply LIC PTF MF67793 for i 7.2.

109. 10 Sep 2020 PROBLEM: (MA48334) Licensed Program = 5770999
                         Usability of a Product's MAJOR Function
                          Loss of virtual Ethernet connectivity
              USERS AFFECTED: All IBM i operating system virtual Ethernet
                              users
              RECOMMENDATION: Apply LIC PTF MF67309 for i 7.2.

              RECOMMENDATION: Apply LIC PTF MF67681 for i 7.2.

106. 24 Aug 2020 PROBLEM: (SE74087) Licensed Program = 5770SS1
                         Base System Function - Work Management, Install,
                         or PTF
                          Call home to CSP fails

```
               USERS AFFECTED: All IBM i operating system users.
               RECOMMENDATION: Apply PTF SI74090 for i 7.2.

105. 14 Aug 2020 PROBLEM: (MA48497) Licensed Program = 5770999
                    Crash/Hang Requiring an IPL to Recover
                     B6000103
                    Unpredictable Corruption
               USERS AFFECTED: All IBM i operating system users.
               RECOMMENDATION: Apply LIC PTF MF67600 for i 7.2.

104. 06 Aug 2020 PROBLEM: (MA48393) Licensed Program = 5770999
                    Other
                     Long vary-on of IASP
               USERS AFFECTED: All IBM i operating system IASP users
               RECOMMENDATION: Apply LIC PTF MF67424 for i 7.2.

103. 28 Jul 2020 PROBLEM: (MA48477) Licensed Program = 5770999
                    Crash/Hang Requiring an IPL to Recover

                    Security
               USERS AFFECTED: All IBM i operating system users.
               RECOMMENDATION: Apply LIC PTF MF67576 for i 7.2.

102. 24 Jul 2020 PROBLEM: (MA48144) Licensed Program = 5770999
                    Crash/Hang Requiring an IPL to Recover
                     B6000103
               USERS AFFECTED: All IBM i operating system users running
                           R730 or earlier.
               RECOMMENDATION: Apply LIC PTF MF67129 for i 7.2.

                       MF67129 is included in cumulative PTF
                       package C0114720.
101. 22 Jul 2020 PROBLEM: (MA47943) Licensed Program = 5770999
                    Crash/Hang Requiring an IPL to Recover
                     B6006965
                    Damage Where Recovery is an IPL, Re-Install, or
                    Restore
               USERS AFFECTED: All IBM i operating system users.
               RECOMMENDATION: Apply LIC PTF MF67112 for i 7.2.

                       MF67112 is included in cumulative PTF

                          Usability of a Product's MAJOR Function
                           Programs involving intrinsic functions compiled
                           on previous release may throw an exception when
                           run on V7R2.
                 USERS AFFECTED: All IBM i operating system users.
                 RECOMMENDATION: Apply PTF SI53294 for i 7.2.

P T F S   I N   E R R O R

This section provides a list of PTFs included in this
cumulative PTF package that were found to cause problems for
some users after this package began shipping. You should
review the 'USERS AFFECTED' field for each item to decide if you
are exposed to the problem. If you are exposed to the problem,
the 'RECOMMENDATION' should be followed.

Users who regularly order and apply individual PTFs should
periodically review PSP SF98188.

Under certain conditions, we recommend that a PTF applied to
your system be removed or that a PTF be omitted when applying
a cumulative package. Instructions for removing and omitting

PTFs follow the PTFs in error.

- 'DEFECTIVE PTF'   - This field contains the identity (PTF
                        number) of the PTF that is defective.

- 'LICENSED PROGRAM - The Licensed Program Number
   NUMBER'

- 'APAR NUMBER'   - The identity of the APAR that reports the
                        problem.

- 'USERS AFFECTED'   - This field describes the users who are
                        exposed to the problem.

- 'REASON DEFECTIVE' - This field provides a description of the
                        problem caused by the error in the PTF.

- 'RECOMMENDATION'   - This field describes the action you
                        should take to avoid the problem.

****

  1. NO ENTRIES.

  OMITTING A PTF

  Refer to Appendix A in the detailed cumulative PTF package
  installation instructions.

  REMOVING A PTF

  Refer to the IBM i Information Center:
  http://publib.boulder.ibm.com/eserver/ibmi.html
  OS/400 and related software->Maintain and manage->Use software
  fixes->Remove fixes)
