FCC & FAA STATEMENT (USA)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference received including interference that may cause undesired operation.

This device has been tested and found to comply with the limits for Class B electronic equipment, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or experienced radio/TV technician for help.

Explosive Device Proximity Warning

Warning: Do not operate a portable transmitter (including this wireless adapter) near unshielded blasting caps or in an explosive environment unless the transmitter has been modified to be qualified for such use.

Use On Aircraft Caution

Caution: Regulations of the FCC, FAA, and individual airlines prohibit airborne operation of some radio frequency wireless devices (wireless adapters) because their signals could interfere with critical aircraft instruments.

SAFETY APPROVAL CONSIDERATIONS

This device is for use only in complete equipment where the acceptability of the combination is determined by the appropriate safety agencies. When installed, consideration must be given to the following:

It must be installed into a compliant host device meeting the requirement of UL/EN/IEC 60950-1 2nd edition including the general provisions of enclosure design 1.6.2 and specifically paragraph 1.2.6.2 (Fire Enclosure). The device shall be supplied by a SELV source when installed in the end-use equipment.

A heating test shall be considered in the end-use product for meeting the requirement of UL/EN/IEC 60950-1 2nd edition.

If the customer device provides diagnoses, treatment advice, or controls hardware or software designed to diagnose or treat medical conditions, all required regulatory approvals and authorizations have to be obtained in the territories where the customer device is made available.

CANADA (IC)

This digital apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus set out in the interference-causing equipment standard entitled: "Digital Apparatus," ICES-003 of the Canadian Department of Communications.

Cet appareil numérique respecte les limites bruits radioélectriques applicables aux appareils numériques de Classe B prescrites dans la norme sur le matériel brouilleur: "Appareils Numériques", NMB-003 édictée par le Ministre Canadian des Communications.

This device complies with Industry Canada license-exempt RSS standards. Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

EUROPE UNION

(CE DECLARATION OF CONFORMITY)

Hereby, Intel declares that the radio equipment type Arduino 101 is in compliance with Radio Equipment Directive 2014/53/EU and RoHS Directive 2011/65/EU. The full text of the EU declaration of conformity is available at the following internet address: <http://www.intel.com/arduino101/eudoc>

LIMITED WARRANTY STATEMENT

1. Warranties.

1.1 — Arduino AG warrants that its products will conform to the Specifications. If the board is bought outside the EU this warranty lasts for one (1) year from the date of the sale. If the board is bought in the EU this warranty lasts for two (2)

years from the date of the sale. Arduino AG shall not be liable for any defects that are caused by neglect, misuse, or mistreatment by the Customer, including improper installation or testing,

or for any products that have been altered or modified in any way by the Customer. Moreover,

Arduino AG shall not be liable for any defects that result from the Customer's design, specifications,

or instructions for such products. Testing and other quality control techniques are used to the extent Arduino AG deems necessary.

1.2 — If any Arduino AG product fails to conform to the warranty set forth above, Arduino AG's sole liability shall be to replace such products.

Arduino AG's liability shall be limited to products that are determined by Arduino AG not to

conform to such warranty. If Arduino AG elects to replace such products, Arduino AG shall be

given a reasonable time to provide replacements. Replaced products shall be warranted for a new

warranty period.

1.3 — THIS LIMITED WARRANTY IS THE CUSTOMER'S SOLE AND EXCLUSIVE REMEDY AGAINST ARDUINO WHERE PERMITTED BY LAW. AND SUBJECT TO SECTION (3). EXCEPT AS SET FORTH ABOVE,

PRODUCTS ARE PROVIDED "AS IS" AND "WITH ALL FAULTS". ARDUINO AG DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, REGARDING PRODUCTS, INCLUDING, BUT NOT LIMITED TO,

ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

1.4 — The Customer agrees that prior to using any systems that include Arduino AG products, the Customer will test such systems and the functionality of the products as used in such systems. Arduino AG may provide technical, applications or design advice, quality characterization, reliability data, or other services. The Customer acknowledges and agrees that providing these services shall not expand or otherwise alter Arduino AG's warranties, as set forth above, and that no additional obligations or liabilities shall arise from Arduino AG providing such services.

1.5 — Arduino AG products are not authorized for use in safety-critical applications where a failure of the Arduino AG product would reasonably be expected to cause severe personal injury or death. Safety-critical applications include, without limitation, life support devices and systems, equipment or systems for the operation of nuclear facilities and weapons systems. Arduino AG products are neither designed nor intended for use in military or aerospace applications or environments, nor for automotive applications or the automotive environment. The Customer acknowledges and agrees that any such use of Arduino AG products is solely at the Customer's risk, and that the Customer is solely responsible for compliance with all legal and regulatory requirements in connection with such use.

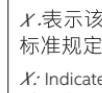

1.6 — The Customer acknowledges and agrees that the Customer is solely responsible for compliance with all legal, regulatory, and safety-related requirements concerning the products and any use of Arduino AG products in the Customer's applications, notwithstanding any applications-related information or support that may be provided by Arduino AG.

2. Consequential Damages Waiver.
In no event shall Arduino AG be liable to the Customer or any third parties for any special, collateral, indirect, punitive, incidental, conse-

quential, or exemplary damages in connection with or arising out of the products provided hereunder, regardless of whether Arduino AG has been advised of the possibility of such damages. This section will survive the termination of the warranty period.

3. Changes to Specifications.
Arduino AG may make changes to specifications and product descriptions at any time, without notice. The Customer must not rely on the absence or characteristics of any features or instructions marked "reserved" or "undefined". Arduino AG reserves these for future definition and shall have no responsibility whatsoever for conflicts or incompatibilities arising from future changes to them. The product information on the Web Site or Materials is subject to change without notice. Do not finalize a design with this information.

4. Statutory laws.*
(i) some countries, regions, states, or provinces do not allow the exclusion or limitation of remedies or of incidental, punitive, or consequential damages, or the applicable time periods, so the above limitations or exclusions may not apply.
(ii) except to the extent lawfully permitted, this limited warranty does not exclude, restrict, or modify statutory rights applicable to where the product is sold but, rather, is in addition to these rights.
