

Samsung Galaxy NotePRO

Innovative business functionality

Innovative new Samsung Galaxy NotePRO lets business professionals view and manage some essential tasks with ease. Key features include:

A superb view of business content.

Large, high-resolution¹, 12.2-inch display for convenient, expansive viewing of business content on a sleek, lightweight mobile device.

Wireless business meetings.

Connected communication and collaboration features with pre-loaded wireless meeting solutions².

Powerful mobile business tasks.

An enterprise productivity-focused solution designed to provide various essential business functionality when business professionals are away from the office and enables them to access³, create and manage various business data and compatible documents⁴.

An expansive view of business information, together with access to some essential business communication tools

Take advantage of a large screen designed for productivity

- 12.2-inch large display with high resolution WQXGA

Promote productivity with an extensive 12.2-inch, 2560 x 1600 resolution WQXGA screen that can allow business professionals to easily read compatible documents. Samsung Galaxy NotePRO's large display can show business professional's information on a spacious screen, to help minimise scrolling up and down when reading books, web pages or other content⁵. All of this functionality is provided in a sleek, lightweight device.

Enjoy powerful multitasking

- Multi window

Experience Samsung Galaxy NotePRO's multitasking power. Multi window allows business professionals to open pages simultaneously. Instead of constantly changing the screen to suit a particular function, business professionals can look up web pages while working on a compatible document and viewing apps.⁸

Smart, connected meetings

- E-meeting solution

Host virtual meetings with the E-meeting solution on the Samsung Galaxy NotePRO without having to connect to a server⁶. Participants connected to the same Wi-Fi Access Point (AP) can share compatible documents in various formats. Business professionals can connect to other compatible devices using the Mobile APs on their devices when they cannot access or use a Wi-Fi AP. Take handwritten notes on the screen in a variety of convenient ways with S Pen, and then save them for later discussions.⁷

- WebEx[®] solution

Meet with anyone, almost anywhere, on a variety of devices with WebEx solution⁹, the outstanding web conferencing solution. Business professionals can leverage integrated voice conferencing, HD video and compatible content sharing to deliver presentations and collaborate. Participate in multipoint conferencing with Samsung Galaxy NotePRO's 6-month free to transmit compatible documents between devices for enhanced collaboration.¹⁰

Complete some business tasks almost anywhere

Productivity with large keyboard functionality

- Large Size Keyboard

Experience a mobile keyboard with direct feedback that is intuitive and responsive. Business professionals can type on the large size keyboard to create and edit compatible documents. The keyboard is spacious on the screen, especially for a sleek lightweight mobile device. With the keyboard, mobile business professionals can work almost anywhere out of the office.

Data sharing and access

- Remote PC

Find and transfer compatible data from a compatible PC to a tablet, anytime and almost anywhere with Samsung Galaxy NotePRO's Remote PC¹¹ feature which includes File Sharing¹² and PC Screen Mirroring functionality. Business professionals can edit or save compatible documents on a tablet¹³, and then save them directly to a PC*. Screen Mirroring allows mobile professionals to remotely view and control their PCs on the Samsung

Galaxy NotePRO anytime, almost anywhere. File Access helps business professionals access PC-stored compatible files that can be transferred to their tablets for viewing and editing before being saved on the device or on the compatible PC.¹¹

Improve productivity with S Pen input

- Convenient S Pen features

Work with S Pen, an intuitive input tool that allows users to access some essential data and features with just the click of a button.¹⁴ Air command allows users to simply access five useful S Pen features: Action Memo, Scrapbooker, Screen Writer, S Finder and Pen Window. Business professionals can use S Note to easily take notes and sketch important ideas promptly and efficiently.

A new standard for enterprise mobile security

- Samsung KNOX™

Experience Samsung mobile security with flexibility through Samsung Galaxy NotePRO with Samsung KNOX. Samsung KNOX satisfies a broad range of requirements from those of highly regulated industries to typical business usage with an integrated hardware and software multi-security layer. The solution helps secure and manages information so that you can conduct business on the go.
