BS2000 OSD/BC V10.0

Migration Guide

User Guide

The basic procedure for migrating to BS2000 OSD/BC V10.0 for S and SQ servers has not changed from BS2000/OSD-BC V9.0.

Consequently the manual "BS2000/OSD-BC V9.0 Migration Guide" still applies (order number: U21630-J-Z125-9-76).

Version names must be adjusted accordingly when migration takes place.

The new edition of the manual will contain special information for the FUJITSU Server BS2000 SE Series.
