Fujitsu Technology Solutions

DPRINTSV (BS2000 / OSD)
Version 1.2A
June 2012

Release Notice

1 General

Distributed Print Services (BS2000) (referred to in this document as Dprint) is an optional product for Distributed Printing Support with CLIENT-SERVER architecture providing inter-operability with Xprint and Windows environments.
It allows distributed services inside a cluster configuration or between cluster configurations.
It runs from BS2000/OSD-BC *) V6.0.

To satisfy the client-server architecture, the Dprint productis split into two delivery units :

- DPRINT-CL containing the DPRINTCL and the DPRINTCM subsystems.

- DPRINT-SV containing the DPRINTSV subsystem.

This Release Notice contains outline descriptions of the major expansions, interdependencies and application notes pertaining to DPRINT-SV V1.2A under the operating system BS2000.

The contents correspond to release status: June 2012.

The Release Notice is supplied as a text file. The typographical conventions for uppercase and lowercase are observed in the file. Updated versions of the file will be supplied as and when modifications to the product are registered.

This release notice is, like all other release notices concerning BS2000 products, available on the Internet under the URL

http://manuals.ts.fujitsu.com/mainframes.html

1.1   Ordering

DPRINT-SV V1.2 is available through your local sales organization.

The general conditions of the Contract for the Use and Maintenance of Software Products apply for DPRINT-SV V1.2.

   *) BS2000/OSD-BC is a trademark of Fujitsu Technology Solutions.

1.2   Delivery

The files for DPRINT-SV V1.2 are distributed through the SOLIS system.

The valid file and volume attributes are listed in the SOLIS2 delivery statement.

Delivery of DPRINT-SV V1.2 includes the following files :

The following release items are needed independent of the HSI:

```
Release Item                    Description
-----------------------------------------------------------------------------------

SYSFGM.DPRINTSV.012.D           DPRINT-SV Release notice (German)
SYSFGM.DPRINTSV.012.E           DPRINT-SV Release notice (English)
SYSMES.DPRINTSV.012             Message file
SYSRMS.DPRINTSV.012              RMS delivery set for DPRINTSV
SYSSII.DPRINTSV.012             IMON installation information
SYSSSC.DPRINTSV.012             SSCM catalog declaration for DPRINTSV V1.2
                                subsystem
```

The following release items are only needed on /390 hardware:

```
Release Item                    Description
-----------------------------------------------------------------------------------

SYSLNK.DPRINTSV.012             Load module library for DPRINTSV
```

The following release items are only needed on SPARC64 hardware (SX product line):

```
Release Item                    Description
-----------------------------------------------------------------------------------

SPMLNK.DPRINTSV.012              Load module library for DPRINTSV
```

The following release items are only needed on X86 hardware :

```
Release Item                    Description
-----------------------------------------------------------------------------------

SKMLNK.DPRINTSV.012             Load module library for DPRINTSV
```

1.3   Documentation

Please refer to the DPRINT-CL Release Notice for this chapter.

2   Software extensions

Please refer to the DPRINT-CL Release Notice for this chapter.

3   Technical information

3.1   Resource requirements

1. Virtual Address Space.

About 0.05 Mbytes

2. Static Disc Space

Less than 10 Mbytes

3. Dynamic Disc Space

Less than 10 Mbytes depending on the configuration and the number of print-jobs.

Note that the minimal size of the resource files transferred is 18 pam pages.

4. Special hardware/firmware/processor type/Real memory.

Not applicable.

3.2   Software configuration

1. Necessary environment

Please refer to the DPRINT-CL Release Notice for this section.

2. Other necessary products

Please refer to the DPRINT-CL Release Notice for this section.

3. For special function, necessary product

Please refer to the DPRINT-CL Release Notice for this section.

3.3   Product installation

In all versions, installation of the product with the installation monitor IMON is mandatory, as the execution of the product requires a consistent Software Configuration Inventory (SCI).

The information concerning installation in the delivery cover letter and in the product documentation must be followed as well as the information given below.

1. Before IMON installation

Please refer to the DPRINT-CL Release Notice for further information.

2. IMON installation

Please refer to the DPRINT-CL Release Notice for further information.

3. After IMON installation

Please refer to the DPRINT-CL Release Notice for further information.

Product installation information

- DPRINT-CL must be installed before the installation of DPRINT-SV.

3.4   Product use

Please refer to the DPRINT-CL Release Notice for this chapter.

3.5   Discontinued functions (and functions to be discontinued)

Not applicable.

3.6   Incompatibilities

Not applicable.

3.7   Restrictions

None.

3.8   Procedure in the event of errors

Please refer to the DPRINT-CL Release Notice for this chapter.

4 Hardware support

DPRINT-SV V1.2 can be used on all mainframes supported by BS2000/OSD V6.0.
