KEY BENEFITS

- Rapid migration, upgrade, design, configuration and deployment
- Reduced Costs
- Accelerated Timelines
- Upgraded Primavera P6 Application
- Risk Mitigation

Primavera Consulting offers consulting services that focus on successful implementation of Oracle's Primavera Cloud Applications. The Primavera Cloud Planning package leverages best practices to determine the Cloud readiness of existing and potential customers for key areas such as Strategy and Organization, Business Processes and Technology. It provides recommendations and roadmap scenarios to shift to Oracle Primavera Cloud Service subscription model.

Primavera Consulting Overview

Oracle's Primavera Consulting is the largest Primavera service organization globally with a dedicated team of highly-skilled consultants experienced in Primavera Cloud applications. Primavera Consulting, working with Primavera Development and Cloud Delivery facilitate full Primavera Cloud readiness in the field, delivering successful implementations of our Cloud applications for our customers. Primavera Consulting experts help drive your organization's project to success and accelerate time-to-value by providing a streamlined methodology and approach. By leveraging Primavera Consulting deep knowledge in Primavera products, we can assist your organization with rapid decision making as we guide you through the deployment process.

Primavera Cloud Planning Service

Primavera Cloud Planning Service is intended for both existing and new customers looking to Primavera Cloud Services, and want to know:

- The readiness of their organization and fit for their business processes
- The technology fit and/or migration from their existing on-premise/hosted IT landscape to Oracle Cloud services
- The Primavera recommended approach for their migration

Oracle Cloud Readiness

Based on our Cloud readiness interviews with key stakeholders during an onsite engagement, Oracle experts will determine your readiness and ability to adopt the Primavera Cloud Service applications.

Fit/Gap Analysis

The Primavera Cloud Planning Service will provide a high-level fit-gap analysis of your key business processes and the cloud functionality currently available. This analysis will highlight which consulting offerings will give you a quick competitive advantage and

what cloud functionality can improve your current capabilities.

Shifting to Primavera Cloud Applications

Our experts will discover any potential implications for your organization in shifting to Oracle cloud applications. As part of this preview, a high-level future-state business architecture and recommended roadmap will be delivered. This roadmap will consist of the stepping stones, the potential co-existence scenarios and an indicative approach and timeline. Primavera Consulting will also address the main benefits for your organization of moving to Oracle Primavera Cloud applications and the next steps for Cloud Planning and adoption.

Customer Participation

The participation of the customer is essential; we require a project manager from your organization, who will act as a single point of contact, manage all internal communication and assist with the project logistics.

In addition, a selected number of key stakeholders from both Business and IT will be required to attend one hour interview sessions to provide background information.

Key Assumptions

The Primavera Cloud Planning package is based on the following key assumptions:

- The service is time-boxed at 5 days.
- Analysis of the customer's system and processes will be conducted via interviews and high-level documentation (Level 1 & 2 process model documentation).
- Key stakeholders will be available for one-hour interviews during the week of the Cloud readiness exploration taking place.
- The customer will assign a project manager to coordinate the week's activities and availability of staff
- Provide project work rooms and facilities
- Travel expenses are invoiced as incurred

Are you a candidate?

Successful organizations are those that can readily adopt the business process enabled by deployment of a Primavera Cloud solution, and are agile to make decisions quickly. By doing so, organizations can reap the benefits of a comprehensive solution in the simplicity of the cloud, delivered in the most cost effective manner by Primavera Consulting.

How are we different?

Count on Primavera Consulting's proven approach to delivering end-to-end, integrated business processes, applications and technology. With Oracle, you get best-practices project and program management—and the capabilities to deliver quality projects on time and within budget.

The Primavera Consulting team is focused exclusively on Primavera and Oracle Technologies, and we have the experts that others turn to for leading practices in Primavera and Oracle hardware and software implementations. We know how to best

optimize your investment in Primavera products and can provide your business with tightly integrated, comprehensive, superior services throughout your ownership experience.

Getting Started

Leverage Oracle's methods, tools, and extensive experience across diverse industries and geographies. Working with Primavera Consulting allows us to provide you with a unified conduit to Primavera experts in Development, Support, Education, and Global Delivery, having the entire Oracle team behind your success. To learn more, contact your local Primavera Consulting representative.
