

ATOS ORIGIN

BE CONFIDENT IN YOUR CHOICE OF PARTNER

Choosing to implement Oracle software is a big decision. Ensuring your investment pays off requires focus and expert guidance. Atos Origin's Oracle solutions team will give you confidence in your commitment.

With one of the largest practices of dedicated Oracle consultants, our experience in deploying Oracle solutions is truly unparalleled. Our expertise covers Oracle, PeopleSoft and Siebel and we hold Oracle's highest level of partner certification - Certified Advantage Partner. The combination of our experience, structured approach and focus on delivery ensures success for our clients, making us the Partner of Choice.

END-TO-END ORACLE ENTERPRISE SOLUTIONS

Atos Origin offers organisations a complete solution to their enterprise system requirements. Combining Oracle's leading-edge database, technology and applications with Atos Origin's extensive implementation, hosting and outsourcing expertise, clients now have a comprehensive, long-term answer to their business infrastructure challenges.

We offer a complete End-to-End solution for the design, build and operation of Oracle-based enterprise systems and the business processes they support, including:

- Business strategy and transformation
- Management of process and change
- Design and build of Oracle solutions using proven Rapid Return on Investment (RROI) methodology
- Fully managed operation services

Covering Oracle, PeopleSoft and Siebel solutions

RAPID RETURN ON INVESTMENT

We're proud of our accomplishments with Oracle. Atos Origin's Rapid Return on Investment (RROI) methodology provides companies with greater visibility of how, where and when business benefits will be achieved. We offer a fast, comprehensive and predictable Oracle E-Business Suite implementation.

WHAT OUR CLIENTS SAY

"We wanted a one-stop shop with the ability to drive the entire solution and meet aggressive timescales. The quality and reliability of the Atos Origin staff, combined with in-depth application knowledge, meant that we could happily concentrate on the internal service re-engineering and other issues knowing that the software would be configured in time for us to go live."

Andrew McManus, Head of Information Systems and Communications, Newport City Council

"The PULSAR programme has been a groundbreaking move for CIMA, and one that will continue to bring benefits in terms of relationship building with our stakeholders and building operational excellence." The close working relationship between CIMA, Atos Origin and Siebel Systems was instrumental in the fast, successful implementation of the PULSAR programme.

John Windle, Director of Finance and Operations, CIMA

CERTIFIED ADVANTAGE PARTNER

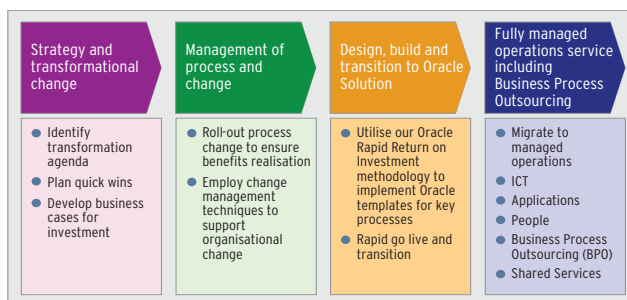

"I have been impressed with the balance achieved by Atos Origin between adopting a formal methodology such as RROI and the level of documentation generated; their pragmatic approach to planning and executing the delivery of this project has been a major factor in achieving the level of change which our business can now take full advantage from. We had a good team of knowledgeable experts who have both helped us set up a system and started that process of reaping the full benefits over time."

Bob Seymour, ATLAS Project Manager, ONS

"We selected Atos Origin based on the breadth and depth of its resources and on its ability to implement quickly and cost effectively using its RROI methodology for Oracle implementations. Allied's business is expanding rapidly so supplier responsiveness is very important to us. We have also been particularly impressed with the cost and timescales benefits of using Atos Origin's off-shore software development resources."

Kevin Taylor, ICT Director, Allied Healthcare

OUR UNIQUE END-TO-END PROPOSITION

REDUCING COST OF OWNERSHIP AND ENHANCING PROFIT
