

ORACLE®

WebCenter Content

Complete and Versatile Content Management

ORACLE®

Agile and Secure

Enjoy a **one-stop solution** for content management.

With Oracle WebCenter Content, you can manage all unstructured content, such as documents, images, and rich media files, from creation to archival under one unified platform.

- Run your business better by using Oracle WebCenter Content to leverage content across applications, business processes, and departments; make your business more agile.
- Reduce your risks because Oracle WebCenter Content helps your organization comply with business policies and regulations, and introduces consistent rules that govern the content life cycle.
- Secure all your content. Secure and mobile, Oracle WebCenter Content provides robust security options. It also supplies finely controlled access through mobile devices.
- Integrate Oracle WebCenter Content with Oracle Documents Cloud Service for a truly blended, harmonious content management solution.

Comprehensive and cost-effective, Oracle WebCenter Content is an enterprise content management solution that's done right!

Fast and Usable

Experience enhanced usability and optimized performance.

Oracle WebCenter Content's modern user interface (UI), powerful search feature, and stable performance create a smooth user experience.

Modern UI

Use a redesigned UI to effortlessly perform your tasks, such as uploading files through simple drag and drop, or viewing those files in the integrated viewer.

Travel through the UI with nearly zero training because it's that simple!

Powerful Search

Benefit from instant search suggestions, an array of filters, and full-text searching. Refine your search using metadata filters to retrieve exactly what you want.

Find just what you need, fast!

High Volume, High Performance

Enjoy exceptional performance even when dealing with extremely high volumes of content.

Get maximum results in almost no time!

Manage content with **robust security and improved compliance.**

A strong authentication mechanism in Oracle WebCenter Content protects your company's content, making it accessible only to authorized users.

Choose from a variety of configurable options to secure your content. Use a combination of security groups, accounts, and user roles to control access to documents. There's additional security for especially sensitive content because Oracle WebCenter Content supports Access Control Lists (ACLs).

Be confident that your content is consistent, can be audited, and complies with business policies and regulations.

For the life cycle of all your content, you're in complete control!

Content Sharing

Content sharing is **quick,** **and seamless.**

Oracle WebCenter Content makes content sharing, collaboration, and reuse easier than ever because it contextually integrates with other applications.

Make your content available in the cloud, on your desktop, or in custom applications using the supported integrations.

You can also embed Oracle WebCenter Content within dashboards and composite applications built with Oracle WebCenter Portal to get:

- Enterprise-class content repositories for dashboards or portals
- A single system of records across the organization
- Better content reuse and collaboration
