**PASTEL** | **EVOLUTION**  
SOFTWARE SOLUTION PARTNER

## Explore new ways of instantly unlocking business insight embedded in your ERP solution with Business Analytics for Pastel Evolution.

Business Analytics for Pastel Evolution is a rapidly deployed business intelligence and reporting application. It can be implemented within a few hours to reduce the burden of manual report writing and enables you to focus on making important business decisions.

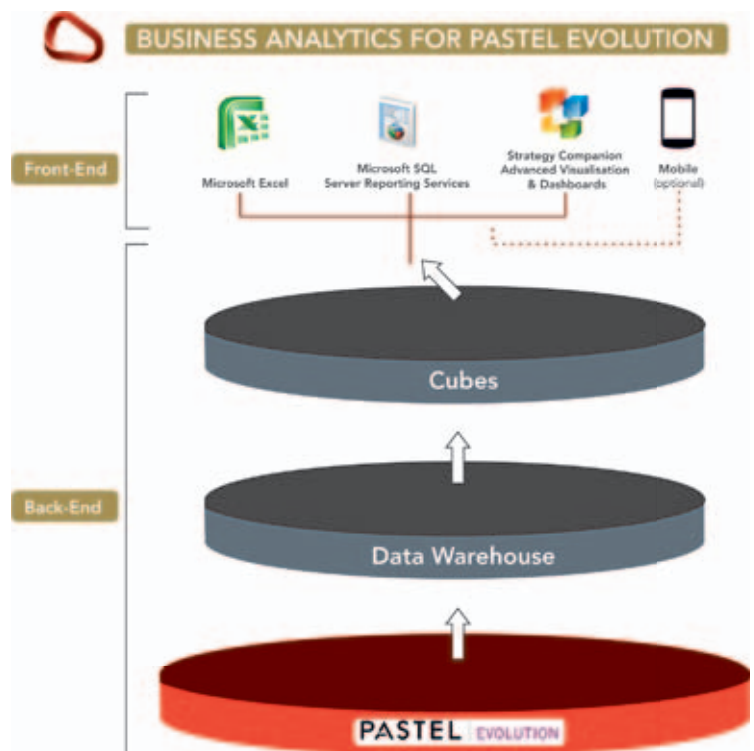

Business Analytics for Pastel Evolution opens up a new world of possibilities for your organisation to visually interact with your ERP data.

### Use Business Analytics to quickly:

- Make sense of the **Sales, Inventory and Financial data** within your ERP solution
- **Detect issues or opportunities** within your organisation
- **Make informed decisions** with quantifiable outcomes
- Optimise your data into **important real-time information reports and dashboards** that can be distributed throughout your business
- Achieve **immediate return on investment**

### Business Analytics for Pastel Evolution provides:

- A full business intelligence data warehouse
- An easy-to-use front-end reporting capability
- Pre-built industry reports and dashboards for:
  - Sales
  - Accounts Payable
  - Inventory
  - Accounts Receivable
  - More than 45 KPIs with various measures for Warehouse, Customer, Product Category and Time are provided in the solution
- Compliance with IT Governance and Audit:
  - Storing snapshots of inventory and sales history
  - Generating documentation for your complete solution
  - Automatically backing-up all application data

## Build once and deploy to all mobile devices.

Create mobile BI reports and deploy to your Employees, Customers or Partners using their mobile devices of choice.

### Key benefits:

- Same day switch-on with **immediate** return on investment
- Less training is required because common Microsoft based tools are used
- Enables decision makers to access critical information quickly with embedded sales and inventory IP
- Businesses that have implemented Business Analytics for Pastel Evolution have managed to:
  - Gain a better understanding of their sales and **increase product sales and profitability**
  - Identify slow moving inventory to **reduce excess stock holding** or increase stock replenishments
  - **Reduce Debtors** in order to **improve cash-flow**
  - Better manage payments to creditors based on cash flow projections
