sage X3 for the Public Sector

Adopt a faster, simpler, more flexible solution with full business management and HRM capabilities to drive internal productivity and better quality outputs with an investment to suit your budget. With Sage X3, you are choosing the next generation of business management solutions for your department or municipality to cope with ever-changing conditions brought about by internal re-structuring or external regulatory compliance. Sage X3 will help you stay agile and meet whatever demands or challenges that come your way.

Sage X3 runs your business faster than ever before, with a cohesive, enterprise-class solution to manage all of your core business processes—from financials to procurement, budget and cost management as well as asset management. It also accelerates collaboration and reporting, delivering real-time insight into all costs and operational performance ensuring activity reporting is linked to outputs. Sage X3 is ready for you. Built-in functionality for best practice financial management combined with the ability to accommodate any of your unique rules and processes. Sage X3 will drive financial integrity through a strong robust control environment ensuring trust in the system and those that operate it. It's also easily scalable—so you'll never run out of capacity again—and quickly adapts to your changing needs, driving efficiency and helping you manage costs and control budget spend.

Running your business does not have to be complicated

Get more done, faster.

Increase user productivity and accelerate adoption with an intuitive web user interface that users can easily personalize to suit the way they work, driving efficiency and eliminating administrative overheads.

Go where your business takes you.

Access your data on mobile devices, check your budgets, manage costs, approve purchases and view key performance indicators on the go on any device. Sage X3 includes a complete mobile framework to deploy specific applications to your workforce and stakeholders as you need them.

Take back control over your processes.

Eliminate inefficiencies, ensure compliance and streamline operations with end-to-end integration of your business processes to control costs and improve profits and controls.

Get the insight you need, when you need it.

Evaluate risks and monitor performance in real-time with user dashboards, self-service business intelligence and reporting tools delivered on premise, on mobile or in the cloud.

Gain agility and focus on your business.

Take advantage of enterprise-class business management functionality, security and scalability at a fraction of the cost and complexity of typical business management solutions. Simplify IT management and free up resources to focus on more important projects. Embrace the power of Sage X3 to easily manage unpredictable new requirements and manage change whilst delivering the desired level of transparency and accountability.

One system, anywhere at anytime.

Reduce costs by implementing a single system for your public finance needs. Replace legacy systems that inhibit performance through duplicate processing, weak integrations and an over-reliance on spreadsheets to make decisions.

Integration made easy.

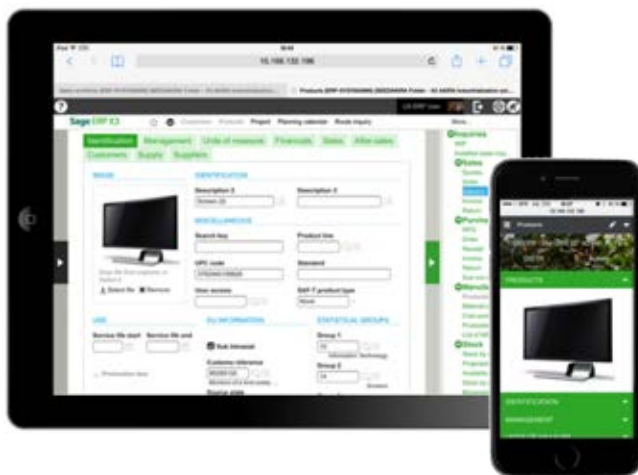

Over time, many public sector organizations have invested heavily in specific best-of-breed software solutions that are still required as part of the transition phase to a new business management solution. Sage X3 delivers many integration possibilities whether batch or real-time using web services or java based technology. Interfaces that may be required include connectors to consolidation tools or operational systems such as procurement portals, existing payroll and HR solutions or custom applications to manage other types of business needs.

Key features that drive the success in this environment

- Strong, robust control environment for financials with dimensional cost centre analysis to track and manage impact of initiatives and deliver trust
- Visual key performance indicators per role in government

Transparency, compliance and service delivery all made easy

There is an absolute need to review systems now. It is widely regarded as a difficult and challenging environment for public sector organizations. Both external and internal expectations for transparency and compliance are at an all-time high and the need to deliver service and payments to suppliers has never been more necessary. These pressures lead to potential inefficiencies at a time when budgets are unlikely to grow considerably so costs must be better managed. Now is the time to review the technologies available to take back control and deliver an exceptional experience both to staff and stakeholders.

Sage X3 is built to deliver both front and back office operations, running entirely in the browser and across any device. Sage X3 can scale to thousands of users and seamlessly integrate to external systems. Sage X3 is the natural choice to deliver a prescribed public sector solution using pre-defined business rules and processes together with a user experience that leads the market.
